

The First Time Ever I Saw Your Face, Roberta Flack

C(2x) Dm G

          Dm                  G                  C  
The first time...ever I saw your face,  
Am7                          Em7                  F  
I thought the sun rose...in your eyes.  
C                                  G                  C  
And the moon and stars...were the gifts you gave,  
          Bb                                  C  
To the dark...and the endless sky, my love.

          Dm                  G                  C  
And the first time... ever I kissed your mouth,  
Am7                          Em7                  F  
I felt the earth move... through my hands.  
C                                  G                  C  
Like the trembling heart... of a captive bird  
Bb                                  C  
That was there... at my command.

          Dm                  G                  C  
And the first time... ever I laid with you,  
Am7                          Em7                  F  
I felt your heart... so close to mine.  
          C                  G                  C  
And I know our joy... would fill the earth,  
          Bb                                  C  
And last...till the end of time, my love.
